TRAVELING SOFTWARE®

Dear Friend,

To celebrate our fifth year in business, we're putting on a new face. Part of our new look is a completely redesigned catalog. We hope you find it more attractive and easy to use. We are also trying to make it easier for the complete computer novice to understand and join the fabulously exciting world of laptop computing. If you have questions, problems or concerns, don't hesitate to call us at (206) 483-8088 or write us at the address below. At the same time, we have been working hard to stay on the "cutting edge" and to find and develop new and improved items for our loyal customers.

Some of the items to watch for as you go through this catalog are, • The incredible RAM/ROM BOOSTER PAK for the Tandy 100/102, • The handy Traveling SixPak, a 3½″ disk wallet, • The new MacDOS Tandy portable disk drive link for the Apple Macintosh, • The world's smallest and best value battery-operated Hayes-compatible modem, • The Sardine Random House Spelling Checker on a ROM chip, • and for IBM or Macintosh owners, an unbelievable football simulation game called NFL Challenge.

As always, we guarantee your complete satisfaction. All purchases carry our 30-day unconditional satisfaction or money back guarantee.

We will notify you if there will be delays of longer than two weeks in shipping any order. Orders are usually shipped within 48 hours of our receipt, and we can ship Express overnight at additional charge if you prefer.

We hope you enjoy our catalog and we welcome your suggestions and comments. If you have any friends that should be receiving our catalogs, see the order form for a place to list their names to receive a copy.

With Best Regards,

The Traveling Software Staff

P.S. Remember, we want to hear from you – what you want, what you like or don't like. Please tell us. Our goal is your complete 100% satisfaction.

GE INFORMATION SERVICE

We are now managing the "laptop roundtable" on the GEnie network.

The laptop roundtable is a worldwide information exchange for laptop computer owners. Get your questions answered, schedule a trip from start to finish with American Airline EAASY SABRE personal reservations system on GEnie, learn of new applications and products (over a thousand free public domain programs for laptops). Virtually all popular laptops are supported.

With a purchase from this catalog of $50.00 or more the $18.00 signup fee will be waived. A special GEnie coupon will be included with your order.

Just follow the signup instructions and join us (TRAVSOFT), Dave Thomas (MORTIMER), and Neil Smith (NEIL. SMITH) on the laptops roundtable today.

PS: You can also reach us via the Byte Magazine "BIX" network thru the "TRAVSOFT" conference. Call for FREE BIX coupon.

SARDINE

Sardine The first electronic pocket dictionary for laptop computers.

Contains the 33,000 word Random House Pocket Dictionary.
The first laptop spelling checker.

Faster than a desk top–(Processes over 13,000 dictionary words per minute!) Look up a single word in seconds or check a 25K document in less than three minutes. Corrections are inserted automatically.

Create your own auxiliary dictionary of special terms, words, names, abbreviations up to the extent of available memory.

Special on the ROM plug-in chip–Word process with the acclaimed T-word program, **plus** over 7,000 of the most frequently used business words (as determined by a two-year, one million word study of business correspondence conducted by Wang Laboratories).

Compatible–Use with the Tandy M100/102, M200 and NEC 8200/8300 laptop computers. Requires 16K RAM, Tandy/Purple computing disk drive (optional for ROM version).

Free–Your own personal copy of the Random House American pocket dictionary with every Sardine you buy.

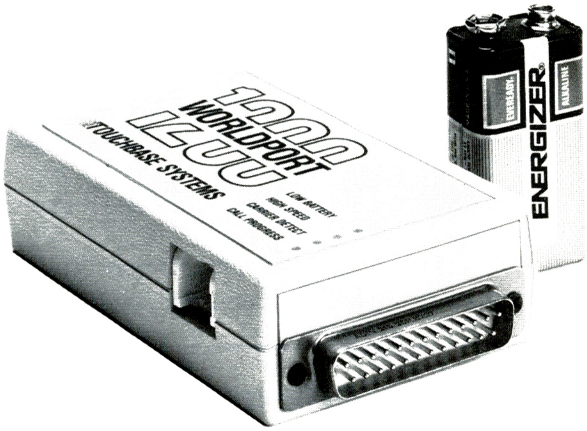
WorldPort 1200

Simple, versatile, efficient, portable 1200 baud Hayes compatible modem



1200 WORLDPORT
TOUCHBASE SYSTEMS
LOW BATTERY
HIGH SPEED
CARRIER DETECT
CALL PROGRESS
ENERGIZER
EVEREADY
ALKALINE

Portability–Powered by its own 9 volt battery or optional AC adapter, it draws no power from your computer. The WorldPort 1200 is the smallest modem of its type available today.

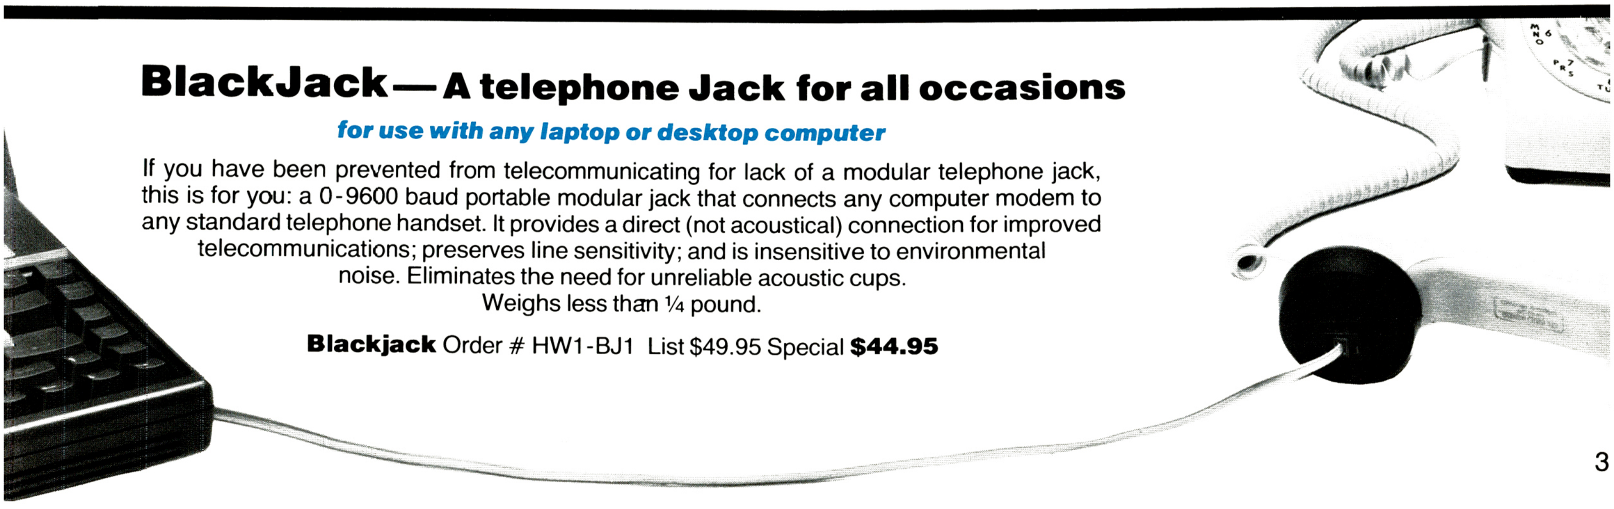
Compatibility–The WorldPort 1200 works with virtually any computer with an RS-232C serial port. Transfer it from computer to computer as needed. Fully compatible with the industry standard Hayes AT Command Set including the latest extended commands. This provides access to a vast range of communications software and existing applications.

Versatility–The WorldPort 1200 meets dual communication standards allowing use throughout the world. Both U.S. accepted BELL 103/212A standards for 300 and 1200 bps and the international CCITT V.21 (300 bps) and V.22 (1200 bps) standards are supported. Both standards are switch and software selectable. In addition to the U.S. standard modular phone jack, the WorldPort 1200 features unique, optional, low cost acoustic cups allowing it to function in virtually all possible situations worldwide.

Portable Extras–The WorldPort 1200 comes complete and ready to use with comprehensive user manual, modular phone cable, adapter cable for use with acoustic cups and the 9 volt battery!

WorldPort 1200

Order # HW1-MO3	For IBM compatible computers (female DB25 connector)
Order #HW1-MO2	For Tandy M100/200 and NEC 8201/8300 Laptop Computers (male DB25 connector) List **$199.95** Special **$179.95**
Order # HW1-M04	For Toshiba 9 pin to 25 pin Cable **$19.95**



BlackJack—A telephone Jack for all occasions

for use with any laptop or desktop computer

If you have been prevented from telecommunicating for lack of a modular telephone jack, this is for you: a 0-9600 baud portable modular jack that connects any computer modem to any standard telephone handset. It provides a direct (not acoustical) connection for improved telecommunications; preserves line sensitivity; and is insensitive to environmental noise. Eliminates the need for unreliable acoustic cups.
Weighs less than ¼ pound.

Blackjack Order # HW1-BJ1 List $49.95 Special **$44.95**

BOOSTER PA

2 Megabytes of Memory for the Tandy Model 100/102!

BOOSTER PAK

An incredible breakthrough! 2 megabytes of RAM and/or ROM memory!

Includes

- 136K of RAM memory (96K available for files)
- 64K of ROM software
- 16 socketed slots for 32K RAM and/or ROM software chips
- 2 Tandy MOLEX ROM sockets
- 6 slots for 256K RAM packs for a total of 2 megabytes
- Provision for a built-in Nicad battery pak
- Provision for a built-in 1200 baud Hayes compatible modem
- Virtual RAM software built-in (no bank switching or copying)
- File folders/sub directories supported
- TS-DOS disk software built-in
- TELCOM supports file upload/downloading to virtual RAM
- Long life lithium battery for RAM backup (rated 7 years)
- BASIC programming access to virtual RAM
- ROM environment software (mix and match any ROM software)
- Ability to develop ROM software from 32-480K in size
- Fast action Asteroids game (with great graphics) built in

Customize Your BOOSTER PAK

It's a completely open system! Add more RAM, ROM software, Nicad batteries or a 1200 baud Hayes compatible "WorldPort" modem to suit your personal requirements. Choose from these available (or soon to be available) options:

- 256K RAM paks
- 32K RAM (certified low power) chips
- Internal rechargable Nicad battery pak
- IBM Desk-Link software (requires a serial cable)
- Sardine Plus word processing and spelling checker Four chip set includes complete 35,000 word Random House dictionary

Never before has so much power and convenience been packed into a 10-ounce snap-on addition to your Tandy Model 100 or 102. Just snap on the BOOSTER PAK (you don't even need a screwdriver) and plug in two cables and you are in business with a 2 megabyte computer that weighs under five pounds and runs on batteries.

More details on BOOSTER PAK and its accessories:

BOOSTER PAK

The basic BOOSTER PAK has 11 open slots for either RAM memory or ROM software chips (12 if you remove the Asteroids game chip). There are also an additional 6 slots for 256K RAM Paks to expand the BOOSTER PAK to an unbelievable 2 megabytes!

Nicad BOOSTER PAK Battery Cartridge:

A self contained Nicad battery cartridge slips into the BOOSTER PAK and connects directly to the A/C power adapter plug. The Battery Pak delivers approximately 10 hours of usage and when the "low battery" indicator comes on, just pull the plug out of the side of your computer and you can continue to operate on the internal alkaline batteries in your computer! A convenient, built-in power reservoir. Recharge your Nicad battery cartridge with your existing A/C adapter.

BOOSTER PAK 1200 baud modem

Our BOOSTER PAK modem is a special version of the popular WorldPort Hayes-compatible modem described elsewhere in this catalog. It fits neatly into the BOOSTER PAK case with a built-in standard RJ11 telephone jack. Our modem operates using the Model 100/102's existing serial port and includes its own 9 volt battery. BOOSTER PAK software allows for fast 1200 baud file downloads and uploads directly to the BOOSTER PAK's virtual memory.

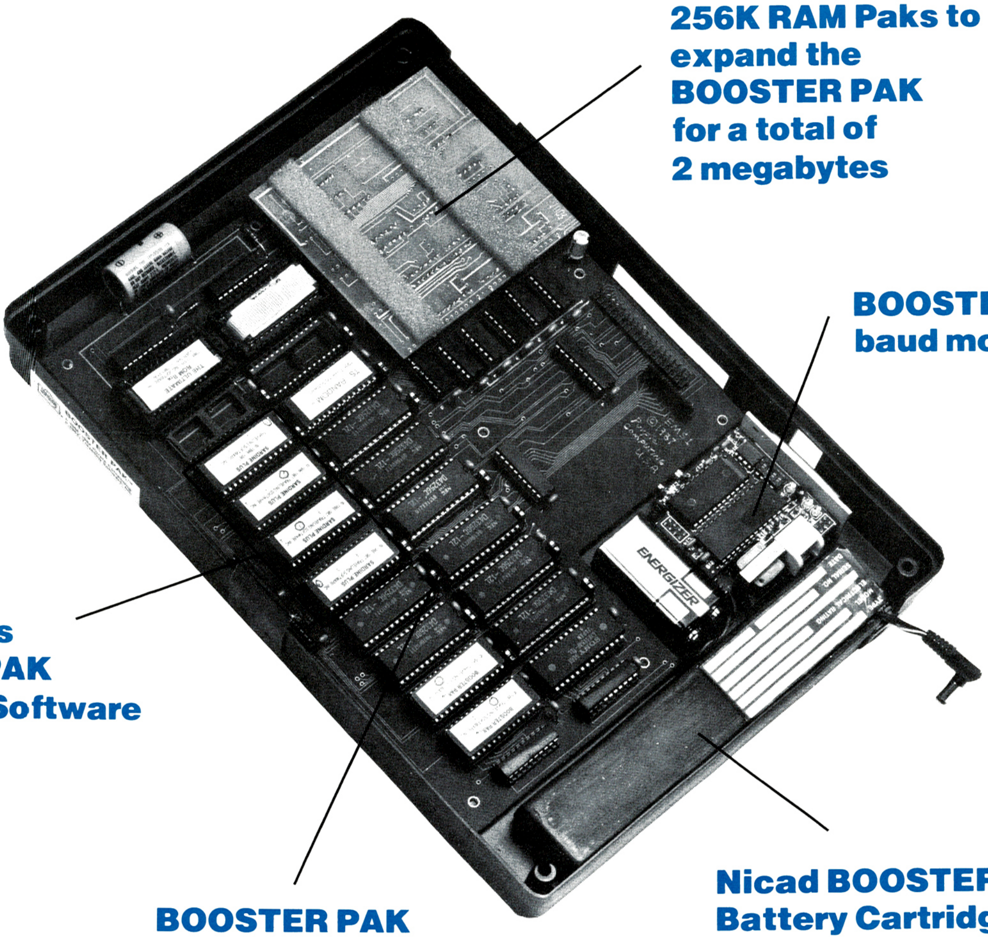
IBM PC Desk-Link Software

With the potential of two megabytes of data in your Tandy 100/102, and because the Tandy portable disk drives are limited to a maximum of a 64K file size in normal use, Traveling Software set out to design a solution to the problem of moving large volumes of information into and out of the BOOSTER PAK. We have come up with two solutions:

1. TELCOM will unload and download directly to the BOOSTER PAK.

2. Our new Desk-Link software package will allow the built-in BOOSTER PAK disk software to "talk" directly to any IBM PC or compatible via a null modem serial cable connection. Our Desk-Link converts your IBM PC into a disk drive for the BOOSTER PAK! Desk-Link will also work with all versions of TS-DOS and TS-RANDOM.

K



256K RAM Paks to expand the BOOSTER PAK for a total of 2 megabytes
BOOSTER PAK 1200 baud modem
Sardine Plus BOOSTER PAK Multi-ROM Software
Nicad BOOSTER PAK Battery Cartridge
BOOSTER PAK 32K RAM/ROM chips

Sardine Plus BOOSTER PAK Software

No longer is your Model 100/102 limited to just one ROM software chip at a time. Traveling Software has developed a special four ROM chip version of its Sardine spelling checker and word processor especially for the BOOSTER PAK. Contained on fast ROM chips is the entire Random House American Dictionary and the popular T-Word word processor. And of course, all our existing Sardine ROM customers can get credit and trade up to the Sardine Plus chip set for the BOOSTER PAK.

Since the BOOSTER PAK is such an incredible breakthrough, we anticipate that we may have difficulty keeping them in inventory, so be patient with us. All orders will be filled on a first in, first out basis. If there will be delays of over 4 weeks, we will advise you. BOOSTER PAK's will begin shipping during July, 1987.

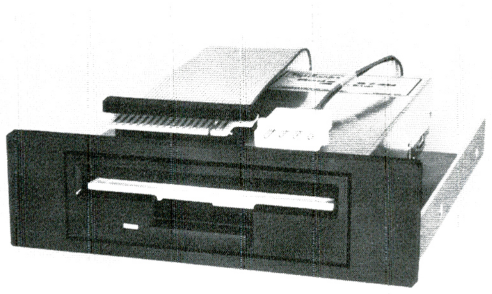
TRAVELING SOFTWARE®

High Density 3½″ Disk Drive



Supports both the 720K format for compatibility with PC laptops as well as the new high density IBM PS/2 1.44 megabyte standard! Great for backing up hard disk drives. Save time shuttling disks as well as cut the number of disks required for backup by a factor of 4:1. Works great with release 2 of LAP-LINK for hard disk backups.

Our drive is 100% SONY quality and includes mounting hardware to slip into existing 5¼″ disk slots on IBM AT's and compatible computers. Requires MS-DOS or PC-DOS 3.3 and IBM AT compatible disk controller for 1.44 megabyte format. The 72OK format is supported by DOS 3.2 and 3.3.

High Density IBM 3½″ Disk Drive	Order # HW1-DD1	**$299.95**
Drive w/LAP-LINK (w/o serial cable)	Order # HW1-DD2	**$399.95**
Box of 10 High Density 3½″ Disks (certified 1.44 megabyte)	Order # HW1-DD3	**$ 59.95**

NOTE: We anticipate a downward trend in the cost of high density disks as more supplies become available. Call for latest disk prices.

ONE KEY SERIES

One-Key Calculator™
One-Key Timekeeper
One-Key Memo Pad™

Calculator—All the features of a desk-top calculator. Add, subtract, multiply, divide, find percentages right on screen without leaving your current program. Produces on screen "tape" of your calculations that you can print as you work. Make financial calculations without having to enter decimal points. Nine memories let you store your result for future use. Feed any result instantly to the cursor position in your underlying software program.

Three functions, each pops up on your screen with a single key stroke while using your favorite program

Timekeeper—On screen Alarm Clock, Calendar, Timer Set up to 9 daily alarms. Search and display any monthly calendar from 1928 to 2027. Six stop watches that can run simultaneously, track billing time, time phone calls. Display Timekeeper while running other software and feed date and time to cursor position.

Memo Pad—A mini word processor in a window. Write, organize, file text whenever an idea strikes. Write notes, memos, insert time and date then jump back into your main program. Later you can retrieve, edit, save and print or load them into your word processor for further development.

$19.95

Ideal for Tandy 100/102/200 and NEC 8201/8300 laptop owners

Laptop Attache

More than just a carrying bag for your laptop computer. Our Laptop Attache is a complete soft sided briefcase with a pocket for just about everything including your computer and battery charger. And it's constructed of coated-nylon pack cloth, foam-backed in all the right places, to safeguard all contents.

The main compartment has three dividers, ideal for your computer, power supply, and work papers or portfolio. Tri-level pockets are on the outside, including one with a snap flap, are great for notepads, calculator, pens, or even 3½″ disks. A unique weatherproof flap covers all. Includes carrying handles and a removeable shoulder strap.

Laptop Attache measures 13″ × 15″ and is available in red with black trim or solid black. Works great with NEC Multispeed, Toshiba 1100, and Zenith 181 or 183.

Indicate choice of color

Special Bonus: As an introductory offer, all Laptop Attache orders will receive a FREE matching clip-on sun glass or eyeglass case.

Laptop Attache Bag Order # HW1-CB2 **$49.95**

WORD FINDER

220,000 synonyms for 15,000 words.

Compiled by Dr. Roger C. Schlobin, Professor of English Literature at Purdue University.

Contemporary Vocabulary—designed for today's writers and business people.

Confirms both meaning and spelling

Fast—The entire cycle of search and replacement takes seconds, allowing you to retain your train of thought.

Precise—Allows you to compare similar synonyms and select the exact one that expresses your thought completely and exactly.

Easy—Place your cursor on the word you want a substitute for and up pops a window with a list of similar words. Place the cursor on the word you want and press the return key. The new word replaces the old one instantly, right in your text, retaining exact capitalization and punctuation. Never lift your hands from the keyboard or your eyes from the screen.

Satisfied Customers

"Your Word Finder has changed my life! I never used to use a thesaurus . . . The speed is incredible, the wit of its arrangements marvelous. Congratulations."

William F. Buckley, Jr.

" . . . Word Finder, a synonym program that blows away its opposition. It's fast. I mean really fast; and it has an enormous vocabulary. If you are looking for a thesaurus program, this is the one to get."

Jerry Pournelle, Byte Magazine

"I am genuinely amazed with this program, its speed, its ease of use, and its huge vocabulary. Word Finder is, by far, the best thesaurus program now available."

Peter A. McWilliams

"Its performance was astounding. Of all the thesaurus programs currently available, Word Finder is the best of the bunch."

Hillel Segal, Denver Post

Word Finder works with virtually all IBM PC word processors.

Our version includes **both** 5¼" and 3½" disks. A great addition to any writer's working tools.

SARDINE + ROM Pack

Another amazing breakthru only available thru the Traveling Software catalog. This slim-design 8-chip ROM pack is approximately ½ inch thick and 2½″ wide. Attaches directly under the Model 100, 102, 200 or NEC 8201/8300. Only one connection is required to the existing ROM socket.

What is even more amazing is that switching from one ROM software chip to another is done all by software—absolutely no mechanical switches! That's right, no switches and no more frustrating "cold starts" of your computer.

Not only do you get four empty Tandy MOLEX ROM sockets to plug in your favorite ROM software, but we have filled the remaining four sockets with a special four chip set of Sardine. This version of Sardine is the same available for the BOOSTER PAK (see page 4) and not only includes the popular T-Word word processor, but the Sardine proof reader and spelling checker along with the ENTIRE Random House American dictionary contained completely on ROM chips! We even supplemented the Random House dictionary with special word lists from WANG Laboratories. Over 35,000 words in all. And blazingly fast!

All this for what you used to pay for a bulky, empty, mechanically switched ROM pack. Our Sardine Plus ROM software is available for the BOOSTER PAK for only $199.95. Buy it with the 8 ROM pack for only $299.

Tandy Model 100 8 ROM pack w/Sardine Plus
Order # RS1-SD4
$299.00

Tandy Model 102 8 ROM pack w/Sardine Plus

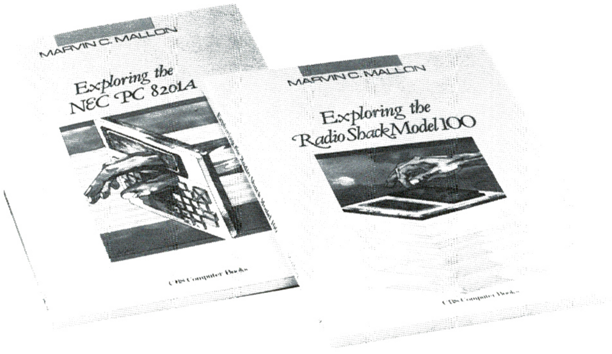
Order # RS3-SD3
$299.00

NEC 8201/8300 8 ROM pack w/Sardine Plus
Order # NE1-SD3
$299.00

NOTE: existing Sardine ROM owners may upgrade for $129.00 and owners of the Sardine DISK version for $198.00. Call for details. Upgrades are also possible for the M100/102 BOOSTER PAK version.

Books to Compute By



MARVIN C. MALLON
Exploring the NEC PC 8201A
MARVIN C. MALLON
Exploring the Radio Shack Model 100

- **Exploring the Radio Shack Model 100** *by Marvin C. Mallon*

One of the best books ever written about the Model 100. Covers everything from communications to the bar code reader option. This book is written in English, not programming jargon. A good way to quickly become familiar with the Model 100. If you are looking for really in-depth technical programming details, you will probably want "Inside the Model 100" (see below).

Order # HW1-BK1 .... **$16.95**

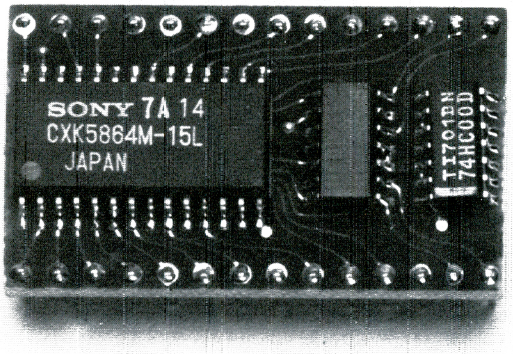
- **Exploring the NEC PC – 8201** *by Marvin C. Mallon*

A very thorough review, in moderate depth, of all the capabilities of the NEC PC-8201 laptop computer. Also provides a summary of the 14 free programs that come on cassette with the NEC PC-8201.
Order # HW1-BK2 .... **$14.95**

- **Inside the Model 100** *by Carl Oppedahl*

In-depth technical review of the Tandy Model 100 hardware design and built-in ROM software. A good background for assembly language programming on the M100.
Order # HW1-BK3 .... **$19.95**

Memory Expansion Chips



• 8K Memory Chip for the Tandy 100, 102 and NEC PC-8201.

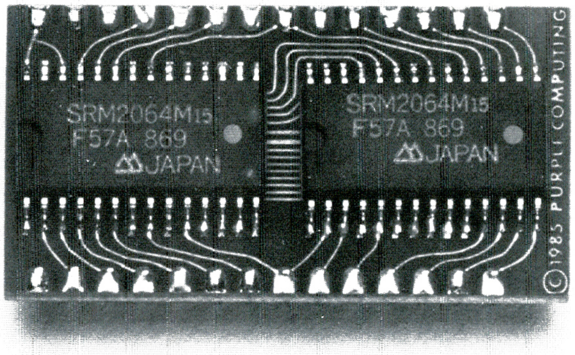
Easily installed in the RAM expansion sockets of these computers, expanding memory by 8,192 bytes per chip. Install enough chips to bring your Tandy 100 or Olivetti M10 up to 32K or your NEC PC-8201 up to 64K (32K per bank). In operation, uses little power, for long battery life. Two-year warranty.

8K RAM Chips-M100	Order # HW1-RC1	**$22.00 ea.**
M102	Order # HW2-RC1	**$14.95 ea.**
NEC	Order # HW1-NE1	**$22.00 ea.**

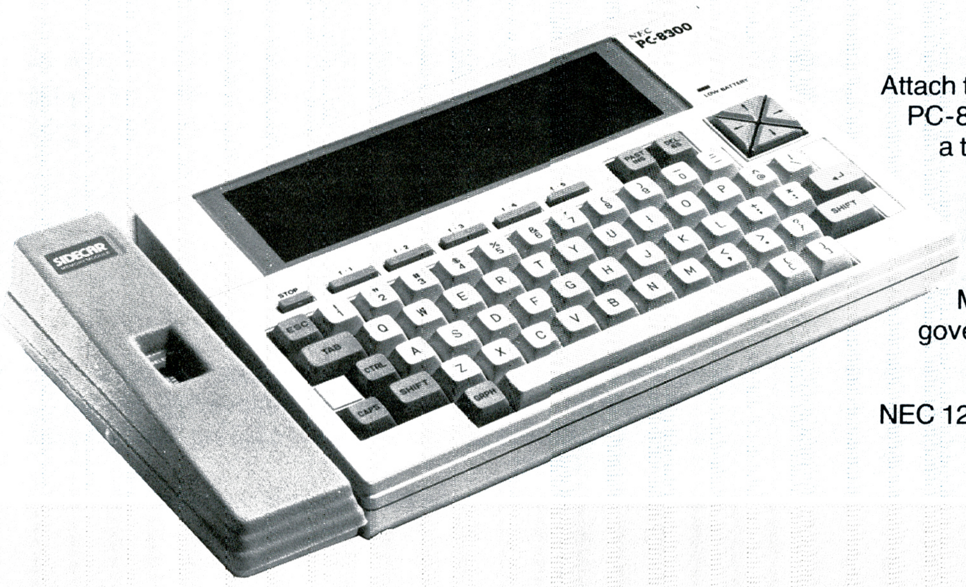
• 24K Memory Chip for the Tandy 200

Installs in the Tandy 200 in less than two minutes – the only tool necessary being a coin to pop open the hatch. Install up to two of these chips to bring the Tandy 200 to 72K. Low power requirements, for long battery life. Pirs made especially for the Tandy 200 expansion compartment. Two-year warranty.

24K RAM Chip M200 Order # HW1-RC4 .... **$65.00**



• 128K RAM SideCar ....for the NEC PC-8201/8300



Attach to the expansion slot on the left side of your NEC PC-8201/8300, and add four banks of 32K RAM – for a total of 192K when combined with 64K of internal memory. Designed to conform to the shape of the computer and operates off two standard AA batteries for five to seven years. Select banks by a switch on the top of the case. Manufactured by Purple Computing, Inc., to strict government standards – a bargain for those needing lots of portable memory.

NEC 128K SideCar Order # HW1-RC2 **$269.00**

TRAVELING SOFTWARE®

The definitive source for laptop computer hardware, software and accessories

TRAVELING SOFTWARE
FOR PEOPLE WHO ARE GOING PLACES
TS—DOS TM
A 3½" Disk Operating System for the Tandy Portable Disk Drive
TS-RANDOM-DOS
TANDY 102
TS-DOS
TANDY

TS-DOS

TS-DOS is a complete operating system for the Tandy and Purple Computing portable 3½" disk drives. Install TS-DOS in your laptop computer, and you can list files both on disk and in RAM; then save to disk, load into RAM, kill, and rename files simply by selecting a file with the bar cursor and pressing a function key. A small portion of TS-DOS can be made RAM-resident, allowing you to save and load TEXT files to and from disk directly from TEXT (from the main menu of the NEC) and write BASIC programs that directly access disk files. It also lets you format disks, preview a file directly from disk, append files on disk to create a single file of up to 64K – even backup the entire contents of a RAM bank at once.

TS-DOS with Tagging (for the Tandy 100/102/200, NEC PC-8201/8300)—The Tag feature lets you load, save, or kill several files at once – at a substantial savings in time. You can select certain files for tagging – or you can tag all files. You can even remove tags – one at a time or all at once. TS-DOS occupies 5.5K of high memory (2.7K for the resident portion).

"TS-DOS is much preferable to the Tandy operating system. . . . I recommend TS-DOS highly." 80 Micro Magazine

Tandy 200K Disk w/TS-DOS-M100/102	RS1-PD1	**$249.00** *
Tandy 200K Disk w/TS-DOS-M200	RS3-PD1	**$249.00** *

*(Includes FREE 6-pack disk wallet with all disk drives)

TS-DOS-M100/102	RS1-TS1	**$ 69.95**
TS-DOS-M200	RS3-TS1	**$ 69.95**
TS-DOS-NEC	NE1-TS1	**$ 69.95**

TS-RANDOM—

Gives you rapid access to many laptop files at once!

Features

Retrieve information much faster than sequential-access methods. TS-RANDOM is built into your computer's BASIC language. Up to eight files are supported for simultaneous access for input and output. A sample BASIC program is included that you can modify according to your own applications.

Load, save or kill several files at once – saving you time and energy. Select special files for tagging or tag all at once. Ideal for loading or saving entire banks of memory on a file-by-file basis.

Recover disks and make quick copies with TS-RANDOM. Special utilities for recovering erased or damaged disk files and quick disk copying are included with TS-RANDOM.

Available on a Plug-in ROM as well as a disk. The ROM chip occupies very little RAM memory and includes both RAM recovery and Lapcoder TEXT compression options. Press one key and any text file is compressed up to 50%. Store the equivalent of 150K of TEXT on a 100K disk or, 48K of TEXT in a 32K RAM bank.

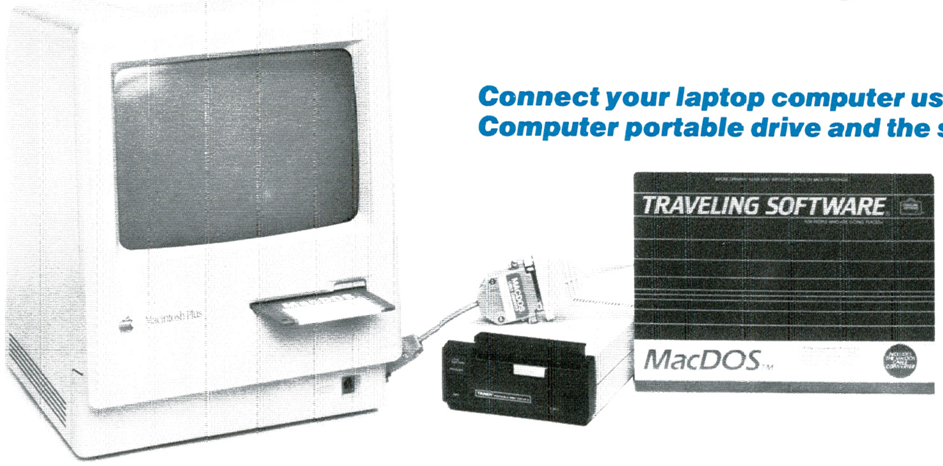
TS-Random-Disk-M100/102	RS1-E1	**$ 89.95**
TS-Random-Disk-M200	RS3-RA1	**$ 89.95**
TS-Random-Disk-NEC	NE1-RA1	**$ 89.95**

TS-Random-ROM-M100/102	RS1-RA2	**$119.00**
TS-Random-ROM-M200	RS3-RA2	**$119.00**
TS-Random-ROM-NEC	NE1-RA2	**$119.00**

IMPORTANT: TS-Random is only available for 100K format disk drives.

MacDOS— Connects your Macintosh to your Laptop computer.

Connect your laptop computer using your Tandy or Purple Computer portable drive and the special MacDOS adapter cable.*



MacDOS
Order # AP1-MD1
$94.95
including cable adapter

Manage Your Data

With MacDOS your Macintosh can read and edit files created with your laptop. Open, edit and print files on the portable drive as easily as regular Macintosh files. Copy all of your files from the portable drive to the Macintosh for easy backups.

Easy To Use

MacDOS gives you access to the data you want when you want it.

Features

- Full editing capabilities for files less than 32K in size.
- Up to 4 file windows open at a time.
- Catalog window shows files on the portable drive.
- Copy all function for quick file transfers
- Supports both Tandy 100K and new 200K disk formats.

* Macintosh Plus owners will need the Mini-8 to DB9 connector cable to use MacDOS.

LAPDOS *the IBM Connection*

Bridges the desktop/laptop gap.

Add LAPDOS to your IBM desktop computer, then connect it to your Tandy or Purple Computing portable disk drive and you can easily exchange desktop and laptop files.

- Features rename, view and delete functions.
- Supports subdirectories on desktop computers.
- Supports both Tandy 100K and new 200K disk formats.
- Always available no matter what desktop program you are using (operable in background).
- Xchange feature to exchange ThinkTank, SideKick and WordStar files with those from IDEA! and other programs.
- Complete with cable adapter for the RS-232C serial port.

Custom ROMs

Have your own programs on a plug-in ROM chip.

Send us your programs on a disk and our engineers will convert them into a plug-in ROM chip. For orders of 50 or more custom ROM's combine TS-DOS, T-Word, IDEA! or T-base with your programs on a single chip. Build your own "ultimate ROM" by combining any Traveling Software product with your custom applications.

FEATURES

Proven Technology Thousands of custom ROM's have been installed since early 1985.

Experience Traveling Software has years of experience with laptop computers and ROM technologies.

Economical Solutions to many applications as low as $49.00 per custom ROM.

Re-Use Program changes can be "reburned" into existing chips without replacing costly CMOS ROM chips.

Custom ROM's are now available for the new IBM compatible NEC multispeed laptop computer. – Also large custom ROM applications are now possible, up to 480K in size, with the Model 100/102 BOOSTER PAK (See page 4-5).

Looking for a Tandy Model 102 or NEC PC 8300 laptop to go with your custom ROM's? Traveling Software is now an authorized distributor. Take care of all of your laptop computing needs with just one purchase order. Phone for your free ROM information kit.

A few current custom ROM customers:

Associated Press, McDonald's Corporation, Swiss News Agency, Matrix Instruments, Inc., Professional Growth Associates, Biolabs Inc., Shell Pipeline Co., Del Mar Avionics, Business Systems Design Inc., Ocean State Scale, Pruett Industries, Specialty Instruments.

"Absolutely Fantastic! Since we began using custom ROM's we have installed over 500 systems in less than nine months."

Tom Villars, Project Manager
Enterprise Systems, Inc.

Normal service 7 – 10 working days. Rush service of 24 – 48 hours is possible.

CUSTOM ROM SERVICE

POWER CELL — *Up to 40 Hours between charges!*

For portable disk drives and laptop computers including the Tandy Model 100/102, and NEC 8201/8300

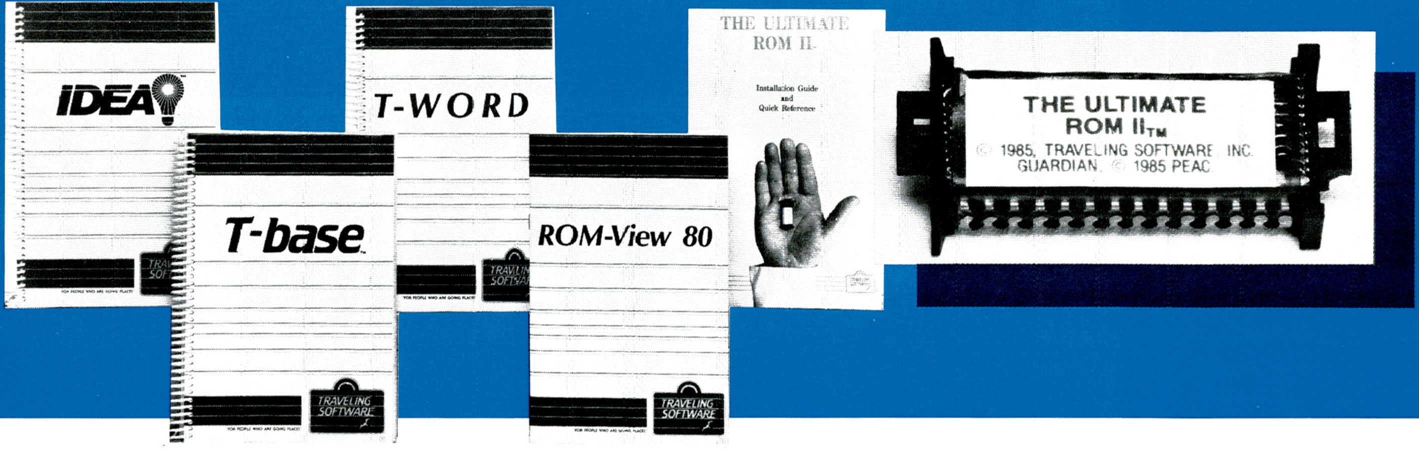
Features

- Far superior performance to "quick drop" Ni-cad batteries
- Lightweight (20 oz.)
- Compact (4½" × 2¾" × 1½")
- Charge overnight on existing A/C adapter
- Up to 8 years of recharging possible
- Power computer and disk drive at the same time
- Exceptional power – buy two and "jump start your Volkswagen"

POWER CELL
SEALED RECHARGEABLE BATTERY

Power Cell Order # HW1-PP1 **$79.95**

The ultimate ROM II



Five applications on one chip!

Traveling Software has pushed the boundaries even farther out! Five applications that occupy only one file on your laptop computer! (Tandy 100/102/200, and the NEC PC-8201/8300)

ROM-View 80 – Create your own basic programs with 80-column display.

Increase display one third to one half, up to 60 characters per line, 80 with scrolling.

Use in TEXT, TELCOM, BASIC and Ultimate Rom II applications.

Note: TS-DOS will be substituted on the Tandy 200 version.

T-Word – Create and review documents before printing.

Search and replace, overwrite, word count, hanging indentation, headers and footers, conditional paging, right justification. Fast text formatting by menu or control codes. Preview documents three ways before printing (including pixel page plot). Merges everything from single words to complete files. Supports virtually all printers having such features as boldface, underline, condensed print.

Idea! The great flexible organizer

Anything from simple lists to complex outlines organized, re-organized, sorted, searched. Includes many database and word processing capabilities. ***New!*** Faster operation, preview mode, template-generating feature. With LAPDOS, files can be exchanged with ThinkTank files.

T-base – For the designing person

Design true relational databases. Borrow information from seven other files. Set up formulas for calculation; spreadsheet-like calculational capabilities.

New faster operation; floating decimal; calculation of sines, square roots, etc,; conditional and logical calculations; exchange files with desktop programs like dBASE II and III, R:base 5000, and WordStar MailMerge.

Portable Disk Drive Support – Print and preview direct from disk.

No need to load files into computer. With disk files, allows all of the merge operations possible with RAM files.

THE ULTIMATE ROM II

Ultimate ROM II – M100	RS1-PR2	**$229.85**
Ultimate ROM II – M200	RS3-UR2	**$229.85**
Ultimate ROM II – NEC	NE1-UR2	**$229.85**

plus packing & shipping

ROM II Users say:

"At $229.85, the Ultimate ROM II may not seem cheap, but that's really just $45.87 per program – a bargin! I find the word processing and display enhancements almost invaluable."

Henry Kisor
Syndicated columnist, Chicago Sun-Times

". . .add the Ultimate ROM II . . .and you'd have a system good enough to be your only computer . . .at least to get started with."

Jerry Pournelle
Byte Magazine, July 1986

"Amazing! That's the only word I can think of to describe your Ultimate ROM II package. Never before has anything been made so small, that can do so much, for so little cost!"

Pete Totaro
Carencro, LA

"The Ultimate ROM II is really great. I have started using my Model 100 again after not using it much for the last six months. A great product!"

David Bunnell
Publisher, PC World Communications, Inc.

TTXpress Printer

The world's smallest battery operated full-function printer.

Only 2.2 lbs. complete with batteries, measures 11″ × 4.5″ × 1.75″. With its built-in parallel interface, the TTXpress can connect to any IBM compatible desktop or laptop computer or the popular Tandy and NEC notebook computers – printer cable included! The TTXpress has fewer moving parts and greater reliability. It prints clear text (with true descenders) and graphics on either 8½″ roll or single sheet paper at 50 characters per second and 40, 80 or even 160 characters per line. Compatible with the Epson MX-80 and prints condensed, enlarged, emphasized and underline characters. Supports bit-mapped graphics. Carry the TTXpress in your briefcase or sit it on top of your home or office computer. Four C batteries, a roll of 8½″ paper and a printer cable included. You'll not find a better value anywhere! Extra roll or sheet paper and A/C adapter is available.

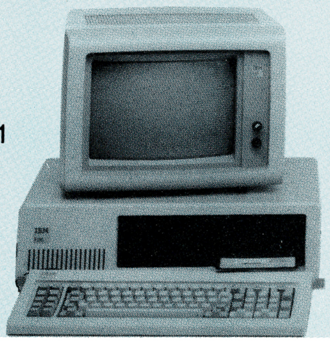
LINKS LAPTOP & DESKTOP
LAPLINK
The ultimate solution for connecting your IBM compatible laptop computer with any IBM compatible desktop computer.
INCLUDES CONNECTING CABLES



Lap-Link
Order # PC1-LL1
$129.95
(Including universal cable)

LAP-LINK Transfer information quickly and easily between computers.

Easy to Use

Install LAP-LINK in your computers, connect them through their serial ports by the LAP-LINK universal cable and you are ready to transfer files, directories, and entire disks. Use either computer to control the other – or to manage files on that computer alone!

Error Free

LAP-LINK will settle for nothing less than complete accuracy. If an error occurs during copying, LAP-LINK will detect it and resend the information.

Release 2

The fast, easy-to-use, error-free, and versatile way of transferring information –

- between IBM PC compatible desktop and laptop computers
- between two desktop computers (IBM PS/2 compatible)
- from one directory or drive to another on the same computer

Classic performance and new power. Now with –

- file tagging
- directory sorting
- tree-structured log feature

Versatile

Specify files for copying by moving the bar cursor, using DOS wild cards, or by tagging. Other choices: copy only files within a specific date range, send only newer copies of a file, send hidden files, require confirmation before overwriting files, display files alphabetically, or in one of four other orders.

LAP-LINK also lets you view document files on the screen, delete and rename files, use either the Com 1 or Com 2 serial port, copy files to different drives and directories on the same computer, create and remove directories. And a lot more!

Fast

LAP-LINK operates at five different speeds from 115,200 to 9,600 baud. The turbo option speeds the copy process by as much as 50%, making LAP-LINK the fastest product of its kind on the market.

The AC Adapter Power Strip

In keeping with the spirit of the Traveling Software catalog, we are including this one-of-a-kind power strip for all of you (myself included) who use your AC power adapters while in the office or at home. How many times have you filled an ordinary six outlet power strip with only two or three AC power adapters which take up to two or more outlet positions? Our unique six outlet power strip uses outlets mounted at a 90 degree angle allow for AC adapters to hang over the side instead of taking up another outlet position. Industrial quality, includes a built-in circut breaker and pilot light.
